PROFESSIONAL SUMMARY

Artificial Intelligence and Data Science undergraduate (2024–2028) with strong interest in Machine Learning, Computer Vision, and AI application development. Experienced in building real-world AI systems using Python, OpenCV, and YOLO. Skilled in developing intelligent applications such as email spam detection, face recognition systems, and gesture-based human-computer interaction. Passionate about building scalable AI solutions and continuously learning modern AI technologies.

EDUCATION

Bachelor of Technology (B.Tech) – Artificial Intelligence & Data Science
Bikaner Technical University
2024 – 2028

TECHNICAL SKILLS

Programming: Python, C++, JavaScript
Machine Learning: Supervised Learning, Model Evaluation, Feature Engineering
Computer Vision: OpenCV, YOLO Object Detection
Web Development: HTML5, CSS, Flask, Streamlit
Database: MySQL
Tools & Platforms: Git, GitHub, VS Code, Power BI, Microsoft Excel

Experience

-AI & Data Science Intern | Eunix Tech

Duration: 05 Apr 2026 – 15 May 2026 (1 Month 10 Days)

PROJECTS

Fake Email Detector (Machine Learning)

- Developed a machine learning model to detect spam and fake emails.
- Implemented text preprocessing and classification using Python.
- GitHub: https://github.com/Anshulj8-eng/Fake_Email_Detector

Hand Gesture Mouse Controller (Computer Vision)

- Built a gesture-based mouse control system using OpenCV, Mediapipe.
- Enabled users to control cursor movements with hand gestures.
- GitHub: <https://github.com/Anshulj8-eng/Hand-mouse>

Security Login System

- Developed a secure authentication system for user login and access control.
- Implemented backend logic using Python and web technologies.
- GitHub: https://github.com/Anshulj8-eng/security_login_system

Face Recognition System (Computer Vision)

- Implemented real-time face detection and recognition using OpenCV.
- Applied computer vision techniques for identity verification.
- GitHub: <https://github.com/Anshulj8-eng/face-recognition>

CERTIFICATION

Machine Learning Foundations – Microsoft

- Learned: Machine Learning basics, model training, evaluation

 <https://learn.microsoft.com/api/achievements/share/en-us/AnshulChoudhary-0419/HZB56BK8?sharingId=391A88349F90340F>

Python Essential Training – Udemy

- Learned: Python programming, data handling, scripting

 <https://udemy-certificate.s3.amazonaws.com/image/UC-7c31d42f-66ff-4642-a3cf-ef188a52a24a.jpg?v=1774080835000>

SQL Certification – Apna Classroom

- Learned: SQL queries, database management, joins, normalization

 <https://www.apnaclassroom.com/credential-validation?credentialId=VJYR2C306UJI>

Data Science Certification – IBM Cognitive Class

- Learned: Data Analysis, Pandas, Visualization, Exploratory Data Analysis (EDA)

 <https://courses.cognitiveclass.ai/certificates/5fcfdc4710a2498193782cd06cbe9fce>

DATA SCIENCE SKILLS

- Data Cleaning & Preprocessing
- Exploratory Data Analysis (EDA)
- Feature Engineering
- Model Evaluation
- Pandas, NumPy, Scikit-learn
- Data Analysis & Data Visualization
- Matplotlib, Seaborn
- Statistics & Hypothesis Testing
